SPSS is a software package or batch, statistical analysis. The software name originally stood for statistical package for the social sciences. It is a widely used programme for statistical analysis in the social sciences.

IQAC of the college has taken an initiative to invite Sri S.Chakravarthy, HOD Statistics,PB Siddhartha Arts & Science College, Vijayawada as Resource Person to create awareness to the teaching fraternity about SPSS package.

Sri. S.Chakravarthy explained that SPSS Statistics can read and write data from ASCII text files (including hierarchical files), other statistics packages, spreadsheets and databases. It can also read and write external relational database tables via ODBC and SQL.
