

15th NATIONAL STATISTICS DAY CELEBRATIONS

Preamble:

Organized competitions on account of 15th National Statistics Day on 29-06-2021.

Participants:

I, II, III year Statistics students of SDMSMK and the other degree college students are participated in various activities.

Description of the Programme:

Every year, June 29th is celebrated as National Statistics Day marking the significance of the birth Anniversary of Prof. Prasanta Chandra Mahalanobis, in recognition of the notable contributions made by the Professor. It is mainly aimed to popularise the use of Statistics in everyday life and sensitise the public as to how statistics help in shaping and framing policies and also to raise awareness among public, especially among the younger generations, about the role of statistics in Socio-economic planning.

A series of events have been planned to mark the occasion. Essay Writing, Poster Making, Elocution and E-Quiz for I, II, III B.Sc. Degree students of SDMSMK and other Degree colleges.

Poster presentation Winners:

- D. Sree Divya Visalakshi of SDMSMK got 1st prize; K. Tejaswini of SDMSMK got 2nd prize.
- K. Harika of Sarada College got 1st Prize; Esther Praveena got 2nd Prize.

Essay Writing Winners:

- V. Sireesha of SDMSMK got 1st Prize; Ch. Vijaya Lakshmi Prasanna got 2nd Prize.
- D. Lavanya of Duvvuru Ramanamma Women's College got 1st Prize; M. Mounika of Nalanda College got 2nd Prize.

Elocution Winners:

- Shagufta Naquia of SDMSMK got 1st Prize; K. Madhu Priya of SDMSMK got 2nd prize.
- M. Sai Sathwika of Nalanda College got 1st Prize; P. Sai Kumar of SRR & CVR Govt. Degree College got 2nd Prize.

SCOPE OF STATISTICS IN DIFFERENT FIELDS

Example - 1

Person: Can you show me the scope of statistics in different fields and why it is important?

Yes, Ma'am... It is very important in many fields of human activity. Some of the fields are: **Business, Education, Health, Agriculture, Industry, Sports, and Entertainment.** It is used in almost every field, including **Business, Astronomy, Medicine, Psychology, and Mathematics.** It is the application of statistics to many fields. Let's look at four examples.

ASTRONOMY

Perhaps more than other Physical Sciences, Astronomy is frequently statistical in nature. The objects under study are inaccessible to direct manipulation in the laboratory. So the astronomer is restricted to observing a few general characteristics and inferring underlying properties and Physics.

Example - 2

The COVID-19 Vaccination Race in Asia
Dose of covid-19 vaccine administered per 100 of population in selected Asian countries (2021)

25.15	Singapore
10.16	China
6.31	India
4.72	Indonesia
2.00	South Korea
0.95	Japan
0.78	Philippines
0.41	Thailand

MEDICAL FIELD

Medicine often uses probabilistic statistics that could be far away from the scientific method. Data are used and analyzed in order to highlight trends or to make a prediction for the validity of a diagnostic method, a therapy or prognosis for a disease.

Example - 3

BUSINESS FIELD

Statistics in Business field is very helpful. Statistical Research in Business enables managers to analyze past performance, predict future business practice and lead organizations effectively. Statistics can describe Markets, inform advertising set Plans and Respond to change in Consumer demands.

As We Can See And understand that Statistics has a wide variety Applications Not Only in the field of Commerce But Statistics has also wide variety of Applications in our day to day life.

In This Session of National Statistics Day "Birth Anniversary of late Prof. C Mahalanobis" I would like to wish each and every Statistician a Very Happy Statistics day.

Thank You
