

CULTURAL PROGRAM ON MAGIC SQUARE DANCE

On National Mathematics Day, i.e. on 22-12-2014 students performed a Magic Square Dance. Students of III B.Sc. gave a splendid performance depicting Magic Square through dance form. Students were given a number which was shown in a 3X3 magic square where the sum of any row, column or diagonal adds up to the given number. Students also performed a Skit on “Life of Ramanujan” which motivated them and enhanced interest in Mathematics.
