

MOSQUITO REPELLENT DHOOP STICKS

Students of Botany prepared dhoop sticks by using Neem, Sawdust, Cow Dung and Other Biodegradable Waste.

- These dhoop sticks are made of fresh 100% Desi cow dung, Neem dust, selected traditional leaf paste (Neem, Tulasi, Eucalyptus) selected herbs and Lemongrass. These leaves are used not only to keep mosquitos away but also bring in positive rays into the home.
- They purify air, push microbes away, emit freshness and help to create an aesthetic and spiritual environment.
