

## *A FIELD TRIP TO JC GRAPHICS PVT.LTD*

III & II BSC chemistry students visited **JOCIL LIMITED**, Dikiparru , Guntur on 10<sup>th</sup> September 2019.

### *Participants:*

A total number of 55 students and faculty.

### *Description of the programme:*

Jocil is a soap manufacturing industry located at Guntur . Students observed purification plant, separation plant and distillation plant. They know the raw materials used and their chemistry, process of purification and their separation. They also observed various steps involved in the manufacture of different types of soaps and the process of packing and storage. The production engineer addressed the students and well explained about the each step involved in the manufacturing process.

The production engineer, Sri.Benerji addressing the students at Jocil.
