

## **A FIELD TRIP TO ALUMINIUM AND STEEL INDUSTRY**

I BSC (PMC&FMC) chemistry students visited **Aluminium and Steel Industry**, Vijayawada on 21-10-2014.

### **Participants:**

A total number of 65 students and faculty.

### **Description of the programme:**

Seeing is learning. So the industrial visit made the students learn a lot. It created enthusiasm in students to establish an industry and practice business. Students got awareness about the preparation of aluminium and steel products and also the techniques used during their preparation in the industry. They also learned about the chemical techniques and solvents used in industries.
