

A FIELD TRIP TO SIRIS COMPANY

III B.Sc chemistry students visited “*Siris Company*”, Vijayawada on 27-11-2014.

Participants:

A total number of 60 students and faculty.

Description of the programme:

Students observed the manufacture of various drugs and precautions to be taken while preparing the raw materials. They also got knowledge about the various latest instruments and equipment used in Siris Company. They came to know about the production of 20 types of syrups and processing of tablets. Students visited quality control section and instrumentation room. The technician demonstrated about HPLC, UV spectrophotometer, gas chromatography and a technique of thin layer chromatography.
