

Workshop on Emergency First Aid Training

Arranged a workshop on Emergency First Aid Training *on* 18th July 2018.

Participants:

A total number of 80 students and faculty.

Resource person:

Dr.G.Malleswarmma, Civil Asst Surgeon, Gudivada.

Description of the programme:

The session on first aid training was facilitated by Dr.G.Malleswarmma, Civil Asst. Surgeon, Gudivada. The training focused on the first aid, how to manage every minor accident and how to treat the patients. The doctor trained the students to perform CPR and how to treat a patient in an unconscious condition. She also explained the process of managing minor cuts, bleeding and burns.

This programme is very useful for the students as it provided the individual life skills and taught them life saving techniques . It built self-confidence and made them able to work well with others during emergency. This programme helped them to reduce the recovery time and they were trained to perform with minimum equipment.

“Service to man is service to God “ - Swami Vivekananda
