Description of the Programme:

Every year, June 29th is celebrated as National Statistics Day marking the significance of the birth Anniversary of Prof. Prasanta Chandra Mahalanobis, in recognition of the notable contributions made by the Professor. The main aim of the national statistics day is to encourage research and development in the field of statistics. Statistics plays a vital role in the modern world, and its importance can be overstated. In today's data-driven society, statistics is the backbone of informed decision making, research, and development. In conclusion, statistics is vital tool in the modern world. The significances of the statistics will only continue to grow as its importance is beyond mere data analysis; it informs decision-making, drives research and development, and solve the complex problems. As data becomes increasingly integral to our lives.
