Charnham India Pvt. Ltd, a Keyloop Company,  
Hyderabad, Telangana.

**Time:** 02:30 PM to 03:30 PM **& VENUE:** SEMINAR HALL

**Objective of Student Induction Programme:**

The objective of the student Induction Programme is to make the students aware of the various online certificate courses and their importance to gain extra credits during the regular undergraduate programme.

**Description of the Programme:**

The resource person with the interactive session enlightened the students on how to acquire a job in reputed companies and the many ways to focus. The Resource Person shared his personal experiences with the students and advised to focus on any one or two programming languages to get a job.

Mr. Kranthi Kumar explained that technology has two sides so they have to use the technology to improve their skill and also to build their future. He explained Basic Computers, Algorithms, Artificial Intelligence, Network Design, Software Engineering and Programming languages. Mr. Kranthi Kumar concluded the session by suggesting that students must aspire to become a programmer in reputed companies.
