

“INTERNATIONAL WORKSHOP ON BIOINFORMATICS “

Date: 20-9-2022 & 21-9-2022

No. of Participants: AZC, BZC, FMB,FMC (200) & Staff (16)

Resource Person: Mr.Rama Krishna Meduri, Neuro Researcher University of George, U.S.A.

Description of the Programme:

Departments of Life Sciences in collaboration with Computer Science, organized a Two day International workshop on “ Bioinformatics “ on 20-9-2022 & 21-9-2022 . The chief Guest Ramakrishna Meduri have explained about Nucleotide and Protein databases and different websites like EMBL, PDB, used for Gene base collecting information related to specific nucleotides and proteins. He also gave hands on experience in Website collecting information from NCBI, for Protein & Nucleotide & from various journals, which can be utilized for their Molecular biology, Bioinformatics Project works. He also enlightened Students about Sequence alignments, usage of BLAST & FASTA tools.
