Innovative in Teaching:

1. Allow for spontaneous interactions. For example, during small group or large group discussions, allow students to discuss freely without offering too much feedback.
2. Create time for informal class opportunities; for example, provide time for students to talk and get to know each other. This can be through small group discussion, games, and hands-on activities during class time.
3. Have students facilitate a roundtable discussion, Talk to other faculty and find out things they have tried and what worked and what did not work.

Declaration

I can do the job with great sense of responsibility and always try to make a positive contribution and efforts to prove myself as an asset to the organization.

Place: Vijayawada.

Date:

(Dr.V.SANDHYA LAKSHMI)
