

VISIT TO RGC AQUACULTURE CENTER GIFT TILAPIA PROJECT

DATE: 23-11-2024

CLASS: II. B.SC., AQUA CULTURE HONS

PLACE OF VISIT: RGC AQUACULTURE CENTER

GIFT TILAPIA CENTER

MANIKONDA

KRISHNA DISTRICT

ANDHRA PRADESH

Today we the department of Aquaculture visited RGC aquaculture center, Manikonda. It was an enlightening experience, providing firsthand insights into the cutting-edge advancements in aquaculture, particularly in Genetically Improved Farmed Tilapia (GIFT). Students had the privilege of learning about the significance of genetically improved varieties, selective breeding techniques, and the meticulous process of seed selection. interact with the scientific officers at the center, who shared their expertise and gave us a detailed explanation of the processes and technologies involved in GIFT Tilapia production. Their guidance helped us understand the practical applications of aquaculture in boosting productivity and sustainability. This visit was a highly enriching experience, leaving students inspired and wellinformed about the critical role of aquaculture in addressing global food security challenges. We extend our heartfelt thanks to the RGCA team for their hospitality and knowledge-sharing.
