## Topic of the Survey on Digital Transactions

III BA Students gather Information on Digital Transactions. The terms digital transaction, electronic transactions, paperless transaction or cashless transaction However, in our paper, a digital transaction is one where the payer and payee both use digital modes of payment. The payments ecosystem has variety of payment systems that have facilitated migration to digital. Unified Payments Interface (UPI) has facilitated digital payments to merchants such as retail outlets, Kirana stores, street vendors, etc. across the country. Bharat Bill Payment System (BBPS) has ensured migration of bill payments from cash / cheques to digital mode with a hassle-free and streamlined digital bill payment experience.
